

## Marksman of the Year Rules

### Safety:

1. All general firearm and range safety rules apply.
2. Obey all commands by range officers.

### Scoring:

1. Practical rifle will use I.D.P.A. Scoring.
2. Practical pistol will use Steel challenge Scoring.
3. Bulls eye pistol and bench rest rifle will use a standard point value system with x's breaking stage ties.
4. Breaking a scoring line receives the higher point value.
5. Each stage will be scored individually.
6. Points available for an individual stage will be as follows:
7. First place will equal total number of shooters in the event, second place will receive one point less and so on.
8. In the event of a stage tie both shooters will receive the average of the two positions.  
Example:
9. 20 total shooters first place equals 20 points, second place equals 19 points, a tie for third and both shooters would receive  $17 \frac{1}{2}$  points.
10. In the event of an overall match tie the number of stage wins will be the tie breaker, if a tie still exist the next highest stage scores will be used. In the unlikely event a tie still exist a shoot off will be arranged by and at the discretion of the match director.

# LEAD CLEAN UP FOR FIRING RANGES & RELOADING

## D-Lead® Hand Soap 4222ES

use with water at wash sinks around the firing range and after reloading

## D-Lead® Deluxe Whole Body Wash & Shampoo 4224ES

use with water to clean hands and in the shower after a day of shooting or working on the range

## D-Lead® Dry or Wet Skin Cleaner 4460ES

use in the field or at outdoor firing ranges where water is not available. Also removes black powder and black powder residue from the skin

## D-Lead® Abrasive Hand Soap 4229ES

use with water. The fine round abrasive provides extra cleaning strength and removes reloading grime

## D-Wipe® Towels

use to clean skin and surfaces, no rinsing necessary. Clean hands and face after shooting. Use at the range and reloading bench to clean and remove lead dust from equipment, benches and most hard surfaces. Keep in your range bag or use the optional canister wall brackets on the firing line and reloading bench for quick clean up.

## D-Lead® Final Clean 2201ES

spray and wipe surface cleaner for use on reloading equipment and around the range. Available as both a concentrate and in ready to use spray bottles

## D-Lead® All Purpose Cleaner 3102ES

heavy duty concentrated surface cleaner for cleaning the entire firing range and to regenerate D-Step™ Mats

## D-Lead® Lead Test Kit

detects lead on the skin, equipment and other surfaces. A useful tool to check the effectiveness of lead clean up

## D-Step™ Mats

place outside firing range doors to reduce the amount of lead being tracked off the firing line
